DANIEL OLIECH

ICT Professional | Web & Software Developer | ICT / TVET Educator

Kenya • 0111503221 • danielayuka7@gmail.com • Portfolio / GitHub / LinkedIn available online

PROFESSIONAL PROFILE

Technology-focused ICT professional with practical experience in web development, software development, database systems, ICT support, networking and computer education. Experienced in building practical, database-driven web applications using modern technologies including HTML, CSS, JavaScript, React, Next.js, TypeScript, PostgreSQL, Prisma, Firebase and Git/GitHub. Passionate about creating reliable digital solutions and explaining technical concepts through practical, learner-centred training.

CORE SKILLS

Web & Software	HTML5, CSS3, JavaScript, React, Next.js, TypeScript, REST APIs, responsive design
Database	PostgreSQL, SQL, Prisma ORM, Firebase, database design, CRUD, authentication
ICT Support	Hardware/software support, Windows troubleshooting, networking, CCTV, system administration
Development Tools	Git, GitHub, VS Code, Node.js, npm, GitHub Pages, Netlify, Render
Education	Computer Studies, programming, web design, database systems, ICT training, assessment
Professional	Problem solving, communication, teamwork, research, project development, adaptability

PROFESSIONAL EXPERIENCE

ICT / Web Development & Software Projects — Independent / Freelance

2024 – Present

- Design and develop responsive websites and database-driven web applications for individuals, businesses and institutions.
- Develop frontend interfaces, backend APIs, authentication, role-based systems and database functionality.
- Work with PostgreSQL, Prisma, Firebase, Git/GitHub and modern JavaScript/TypeScript frameworks.
- Deploy and maintain projects using GitHub Pages, Netlify and Render.
- Troubleshoot application, API, database and deployment problems through structured testing and debugging.

ICT / Computing Industrial Training — Masinde Muliro University of Science and Technology

20 May – 8 August

- Practical exposure to programming, computer hardware repair, networking, CCTV and system administration.
- Worked with emerging technology areas including Internet of Things (IoT) and Artificial Intelligence (AI).
- Participated in technical learning activities and an institutional visit to the Kenya Ports Authority.

EDUCATION

Bachelor of Education Technology — Masinde Muliro University of Science and Technology (MMUST)

Computer Studies / Technology Education • Undergraduate

Relevant areas: programming, web development, database systems, information systems, computer networks, system analysis and design, educational technology, ICT education and mathematics.

SELECTED SOFTWARE PROJECTS

Smart Marketplace — Full-Stack E-Commerce Platform

Online marketplace platform with customer and seller accounts, product management, categories, shopping cart, orders, admin functionality and PostgreSQL/Prisma integration.

Technologies: Next.js • TypeScript • PostgreSQL • Prisma

Smart TVET Platform

Digital learning and institutional management platform covering student profiles, courses, timetables, attendance, results, administration, authentication and database integration.

Technologies: Next.js • TypeScript • PostgreSQL • Prisma • REST APIs

Kisumu Polytechnic MIS

Management information system prototype covering admissions, students, departments, courses, units, fees, attendance, results, GPA, transcripts, staff, timetables, library, hostel, certificates and reports.

Technologies: HTML • CSS • JavaScript • LocalStorage • Web APIs

Oliech Shop

Online shopping platform for electronics and other products, including product presentation, shopping functionality, customer interaction and cloud deployment.

Technologies: HTML • CSS • JavaScript • Firebase • GitHub • Render

TEACHING & TRAINING

Practical interest and experience in ICT and technical education, with emphasis on demonstrations, project-based learning and learner-friendly explanations.

- Computer Studies and ICT Fundamentals
- Web Design and Programming
- Database Systems and Information Management
- Basic Networking and Computer Applications
- Practical assessments, demonstrations and learner support

SELECTED TECHNICAL AREAS

Web Development • Programming • Database Management • MIS • Networking • System Administration • Software Engineering • Educational Technology • Information Resource Management

CAREER INTERESTS

Software Development • Full-Stack Web Development • Frontend / Backend Development • Database Development • ICT Support • System Administration • Network Support • ICT Training • TVET / Technical Education • Educational Technology • Information Systems • E-Commerce Development

PROFESSIONAL STRENGTHS

Problem Solver: Investigates technical problems and develops practical solutions.

Practical Developer: Focuses on building functional, usable systems.

Continuous Learner: Builds skills through projects, research and experimentation.

Technical Communicator: Explains technical concepts clearly and practically.

Adaptable Team Player: Works collaboratively while taking ownership of assigned tasks.

PERSONAL STATEMENT

I am passionate about using technology to solve practical problems and create opportunities. My goal is to combine software development, ICT expertise, education and entrepreneurship to develop digital solutions that create meaningful impact for individuals, businesses and institutions.
